

BUILDING A BETTER FUTURE FOR DOGS

In 2022...
585 animals were
adopted and
WCHS sheltered
603 pets.

- **Modern kennel layout** designed to reduce reactive barking by limiting people from walking through as a pathway to other places. Materials that **absorb sound**. More **natural light**.

- A **Meet & Greet Room** for people to get to know a dog before adoption.

- Re-configured **dog play yard** for multiple dogs.
- A "**Real Life Room**" that provides a space for stressed dogs or new arrivals to relax, and doubles as a temporary boarding room.
- A specialized **chemical pump system** to ensure the kennels are sanitized, reducing disease transmission.
